

60 cm Electric Pyro Built-in Oven, TFT display Modern Series

F6011MODVPTX

The Bertazzoni Modern Series 60cm built-in electric oven with pyrolytic self-cleaning has a 76 litre capacity best-in-class cavity. With 11 functions it is ideal for mid-to low-temperature cooking, such as baking or recipes that require slow cooking, like casseroles. The non-convection mode is excellent for baking cakes, while the fan-assisted mode ensures even heat distribution on all five levels for roasting and baking with no flavour crossover. The oven is easily managed with full touch controls in a black glass control panel with a clear TFT display, which offers remarkable flexibility when choosing cooking modes. It also makes managing the food probe and Bertazonni Assistant simple. The soft open-and-close door is safe and easy to use, fitted with a smart glass-finish handle. The door is quadruple-glazed for safety and energy efficiency. Pyrolytic cleaning is based on high-temperature cleaning and sterilising without detergents to leave your oven sparkling clean hygienic. Available in stainless steel, Carbonio, zinc and copper.

Specifications

Features

Oven cavity

Size	60 cm
Oven fuel	electric
Oven type	Total steam
