

60cm Gas Built-in Oven 5 functions Professional Series

F605PROGKX

This Bertazzoni Professional Series 60cm built-in gas oven with gas grill offers a best-in-class cavity capacity of 76 litres. With 5 functions it is ideal for fish and roasting meat as gas ovens reach a high temperature quickly, which helps to seal the food, making it crispy on the outside while retaining moisture inside. Temperature adjustments are instantaneous, which makes it a very precise way to cook. The non-convection mode is excellent for baking cakes, while the fan-assisted mode ensures an even heat distribution for single and multi-level roasting and baking without flavour crossover. The oven is easily controlled by metal knobs with soft opening door with metal handle for ease of use. The door is double-glazed for safety and efficiency. Available in stainless steel.

Specifications

Features

Oven cavity

Total volume	76 L
Size	60 cm
Oven fuel	gas with gas grill
Oven type	fan assisted gas
Oven grill type	gas
Cooking modes	bottom bake / gas convection / grill / oven light / turnspit
