

90x60 Electric Cooker Professional Series

PRO905VMFELXC

Bring Italian design and precision into your kitchen with the Professional Bertazzoni full electric cooking range, "Core" version.

Cook like a pro on the five radiant vitroceramic areas, spaciouly laid out to accommodate pots of different sizes, mounted in a beautiful stainless steel squared frame.

Crank up the heat to boil water, sear meat or cook with a wok using the 2.2KW extensible areas, delicately melt chocolate on the smaller area. No danger at all in your house and for your family with the 100% electric cooker, with residual heat indicators for all the areas.

Clean in no time after cooking, thanks to the seamless one-piece vitroceramic surface and catalytic liners inside the oven cavity.

Designed and manufactured with pride by Bertazzoni in Italy.
